Supabase PostgreSQL Cloud	<code>https://hbuhkenlctqefgppqxiah.supabase.co</code>	Production DB (ap-south-1)	Supabase Anon Key & Row Level Security
Email Verification Service	<code>Supabase Auth & SMTP Dispatcher</code>	Cloud Verification & Password Resets	Email Token Verification

3. Security Guidelines & Operational Instructions

- Initial Login & Password Policy:** Administrators are advised to update default credentials upon initial login via the *Super Admin Console > Security & Key Vault*.
- Multi-Device Cloud Synchronization:** The system syncs with Supabase Cloud DB in real time. Changes saved on any device immediately propagate across all active terminals.
- Student Self-Registration:** New signups automatically receive **General Member** role. Lead Organizers can elevate members to Core Team or Executive roles via the Promotion Modal.
- Verification Hashes:** Every generated letter includes a unique cryptographic verification hash on the university letterhead.
